

February 2, 2023

Dear friend,

Thank you for your long-time, generous support for the Quixote Center. Because of you and so many other friends, we have been able to carry out our work of challenging and transforming oppressive systems that stifle economic justice and peace in Nicaragua, Haiti, and elsewhere across the globe for over 40 years.

We want to ensure that the Center can continue its mission for the next 40 years and beyond. To this end, we are launching **23 in 2023**, a planned giving campaign to secure 23 legacy gifts in 2023.

Planned giving refers to money left to a non-profit or charity in one's will. These "legacy gifts" help to ensure Quixote Center's future, and enable us to plan more strategically for our long-term commitment to promoting justice and seeking peace.

To find out more about planned giving and what it would mean for Quixote Center, please see the enclosed brochure or visit our website: [www.quixote.org](http://www.quixote.org).

Please consider joining our **23 in 2023** campaign by making the Quixote Center part of your lasting legacy. If you would like to talk to us about our work and planned giving, please indicate that on the enclosed reply card and we will contact you. If you have already decided to make the Quixote Center part of your legacy, please let us know with the enclosed reply card so we can properly acknowledge your gift.

We look forward to continuing to work with you to build a world more justly loving.

Peace and joy in the struggle,

Dolly Pomerleau  
Quixote Center Co-Founder

Kim Lamberty  
Executive Director
